

Notice of Privacy Practices

This notice describes how medical information about you may be used and disclosed and how you can get access to this information. Please review it carefully.

The United States Department of Health and Human Services, effective August 9, 2002, issued comprehensive federal regulations providing for protection of private medical information with which our office must comply. The final regulation, which goes into effect in April, 2003, is designed to protect patient's identifiable health information. These protections are part of the Health Insurance Portability and Accountability Act of 1996 (HIPAA). (If more stringent state laws exist, these must be observed).

The HIPAA privacy rule states that after April 14, 2003, health providers must provide patients with a written Notice of Privacy Practices and make a good faith attempt to obtain a written acknowledgement of such. This information should be provided to patients prior to or at the time of the first delivery of health services, except in cases of emergency. However, if a written acknowledgement is not obtainable, the attempt by the provider to obtain it is sufficient to comply with the rule.

The Health Insurance Portability and Accountability Act of 1996 require that health providers keep your medical and dental information private. The HIPAA privacy rule states that health providers must also provide patients with a written Notice of Privacy Practices. This Notice is dated 10/18/09. The Privacy Practices described will be in effect after this date and until or if they are replaced. Our office Privacy Practices described will be in effect after this date and until or if they are replaced. Our office Privacy Practices may change from time to time. If changes are made, a new Notice of Privacy Practices will be displayed in our office and provided to patients. You may obtain additional copies of this Notice on request. Additional information may be obtained by contacting us using the information listed at the end of this Notice.
